

News Release

LenSec and Sendera form alliance

Press Release - [September 14, 2005]

Houston, Texas, September 14, 2005- LenSec, LLC a leader in IP-based Enterprise-Wide Video Surveillance announced its plan today to form a strategic alliance with Sendera Consulting.

Sendera Consulting based in Houston, Texas, approached LenSec to develop a strategic relationship after each realized the potential of the other's products and services. This alliance is beneficial to both companies because of their complementary offering in the high technology security segment.

"We are thrilled to have formed this partnership with LenSec because together we expect to help expand each other's client base in the US and Latin America," said Jaime Garcia, President and Chief Executive Officer of Sendera Consulting. "Sendera's experience in systems integration and security planning coupled with the extensive network of relationships will supplement LenSec's state-of-the-art video surveillance solution.

"We are very excited to have the opportunity to work with such a successful, growing firm as Sendera. We want to leverage Sendera's experience and extensive relationships in the public and private sectors" said Keith Drummond, Chief Executive Officer of LenSec.

About LenSec, LLC

LenSec provides Enterprise-Wide Video Surveillance solutions to Federal, State, Local and Education clients that allow more effective remote management of facilities and enable instant, real-time collaboration with third-party agencies during an incident.

LenSec's Video Surveillance solutions allow any authorized user to access any camera at any facility from any computer over the LAN/WAN using only a standard Internet browser. A single enterprise logon provides access to the live view of any camera within two mouse clicks and camera locations are easily identified on a graphical floor plan of the facility. LenSec's Video Surveillance solution is able to integrate with most other enterprise security and facilities systems.
