

Perspective VMS – Product Evolution and Roadmap History (brief)

LENSEC, LLC developed the Perspective VMS product line to follow its longstanding successful Video Management Software (LENSEC VMS). Perspective VMS was introduced in the fall of 2011 with Version 1.0.0 at the 2011 American Society for Industrial Security (ASIS) Trade Show in Orlando, Florida.

The timeline of installations from 1.0.0 to the current 2.6.0 release is listed below with hyperlinks to corresponding release notes.

Major Release Version 1.0.0 (Released – 11/17/2011)

 [Maintenance Release Version 1.0.1 \(Released – 02/23/2012\)](#)

 [Maintenance Release Version 1.0.2 \(Released – 03/04/2012\)](#)

 [Maintenance Release Version 1.0.3 \(Released – 03/18/2012\)](#)

 [Maintenance Release Version 1.0.4 \(Released – 04/05/2012\)](#)

Minor Release Version 1.1.0 (Released – 04/20/2012)

 [Maintenance Release Version 1.1.1 \(Released – 05/17/2012\)](#)

 [Maintenance Release Version 1.1.2 \(Released – 06/07/2012\)](#)

 [Maintenance Release Version 1.1.3 \(Released – 06/21/2012\)](#)

 [Maintenance Release Version 1.1.4 \(Released – 06/28/2012\)](#)

Minor Release Version 1.2.0 (Released – 07/13/2012)

 [Maintenance Release Version 1.2.1 \(Released – 08/17/2012\)](#)

 [Maintenance Release Version 1.2.2 \(Released – 10/16/2012\)](#)

Minor Release Version 1.3.0 (Released – 01/25/2013)

 [Maintenance Release Version 1.3.1 \(Released – 04/01/2013\)](#)

Minor Release Version 1.4.0 (Released – 06/05/2013)

 [Maintenance Release Version 1.4.1 \(Released – 08/02/2013\)](#)

Minor Release Version 1.5.0 (Released – 01/14/2014)

 [Maintenance Release Version 1.5.1 \(Released – 02/11/2014\)](#)

Major Release Version 2.0.0 (Released – 04/01/2014)

 [Minor Release Version 2.1.0 \(Released – 06/12/2014\)](#)

 [Maintenance Release Version 2.1.1 \(Released 10/01/2014\)](#)

 [Minor Release Version 2.2.0 \(Released 11/24/2014\)](#)

 [Minor Release Version 2.3.0 \(Released 02/17/2015\)](#)

 [Minor Release Version 2.4.0 \(Released 05/05/2015\)](#)

 [Maintenance Release Version 2.4.1 \(Released 07/02/15\)](#)

 [Minor Release Version 2.5.0 \(Released 09/03/15\)](#)

 [Maintenance Release Version 2.5.1 \(Released – 10/30/2015\)](#)

 [Minor Release Version 2.6.0 \(Released – 02/19/2016\)](#)

 [Minor Release Version 2.7.0 \(Released – 05/27/2016\)](#)

 [Maintenance Release Version 2.7.1 \(Released – 06/20/2016\)](#)

 [Maintenance Release Version 2.7.2 \(Released – 07/28/2016\)](#)

 [Maintenance Release Version 2.7.3 \(Released – 11/14/2016\)](#)

The Power of Perspective

- [Major Release Version 3.0.0 \(Released – 2/6/2017\)](#)
- [Maintenance Release Version 3.0.1 \(Released 4/10/17\)](#)
- [Minor Release Version 3.1.0 \(Released 6/12/17\)](#)

A complete list of Features to-date may be found on our [Features and Editions Report](#) and/or our [Architectural and Engineering Specifications](#).

Future Release Schedule and Roadmap

LENSEC maintains an active roadmap schedule pulling feature requests from users, security and vertical market consultants, as well as industry analysts to provide an ever evolving security solution for our customers. Over the next 3 years we see Perspective VMS graduating to one or two new major version enhancements with 4 to 5 minor version releases per major release. We can also forecast there will be a number of maintenance releases that would add some level of notable functionality or integration improvements for select customers but may not merit a minor or major release / rollout of their own. In total we can assume 10-20 incremental releases of which end-users may choose to take advantage of 5-10 software updates that offer applicable feature enhancements to their environments.

To this end, LENSEC's product "Breakthrough" concept empowers end-users to identify features they believe would help them solve day-to-day issues and make the overall product more effective. The process creates a channel or pipeline for users to relay feature requests to LENSEC's development team for inclusion in future versions. These feature requests "breakthroughs" become the core product additions for minor and major software release updates.
